Ensure your Cellphone's Bluetooth is on, and you have cell coverage during this process. Please take the following steps to complete the Anywhere button setup.

GET CENTURION ANYWHERE APP

a) Go to Google Play Store and Search "Centurion Anywhere".
b) Select "Install" and then "Open" after installation is complete.

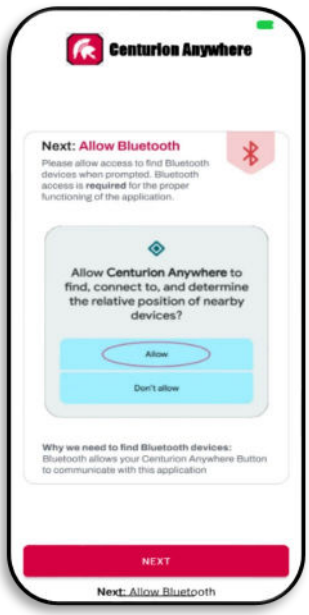

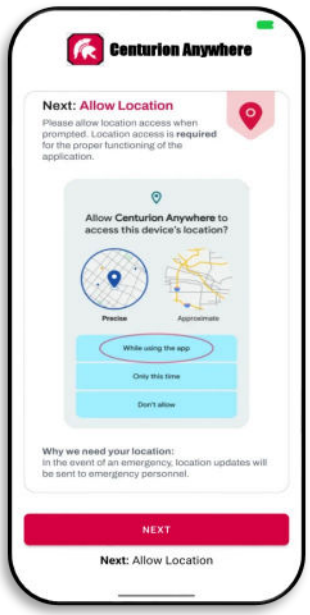

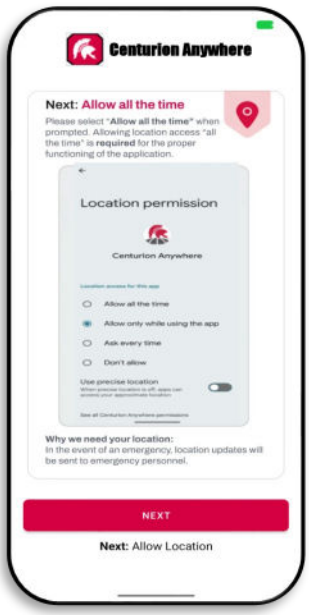

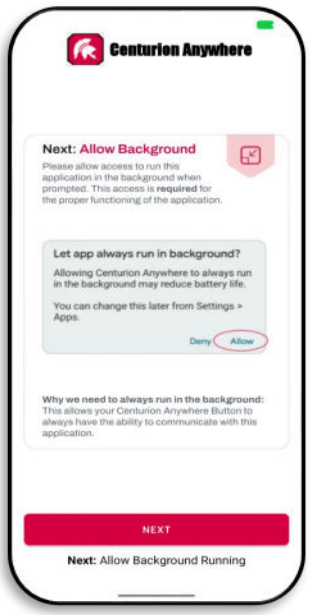

ALLOW PERMISSIONS AND PAIR BUTTON

a) Allow Bluetooth to find and connect to the Anywhere Button.
b) Allow Location and choose "Allow all the time" so the app can provide location of activations.
c) Allow the app to run in the background so the button can always communicate to the app.

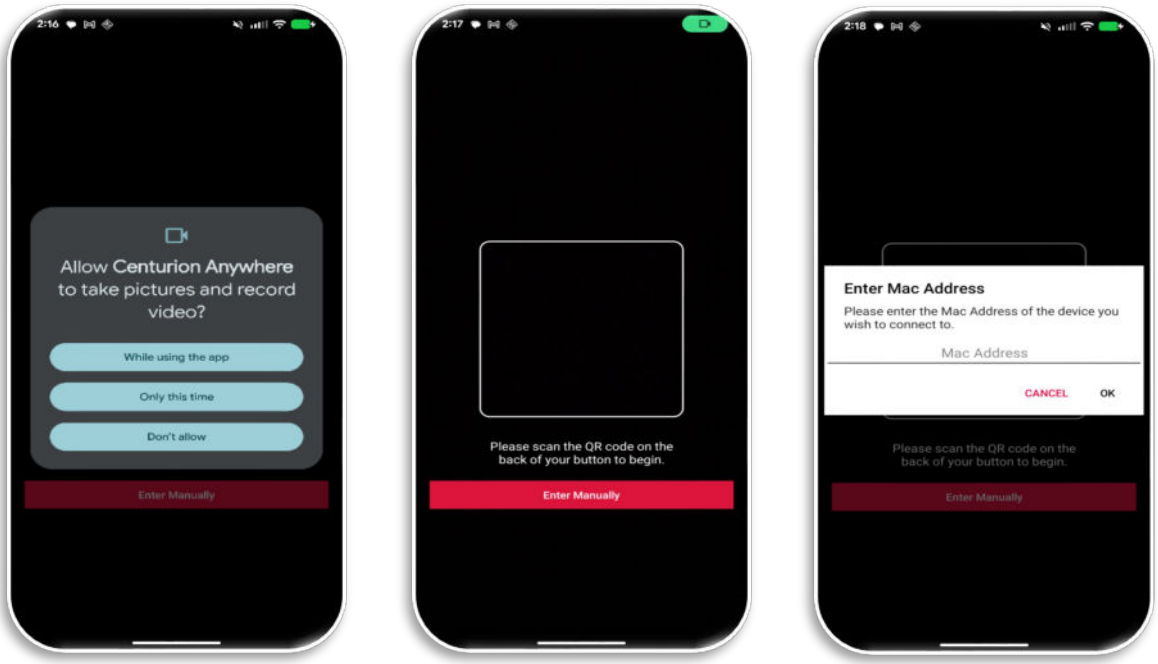

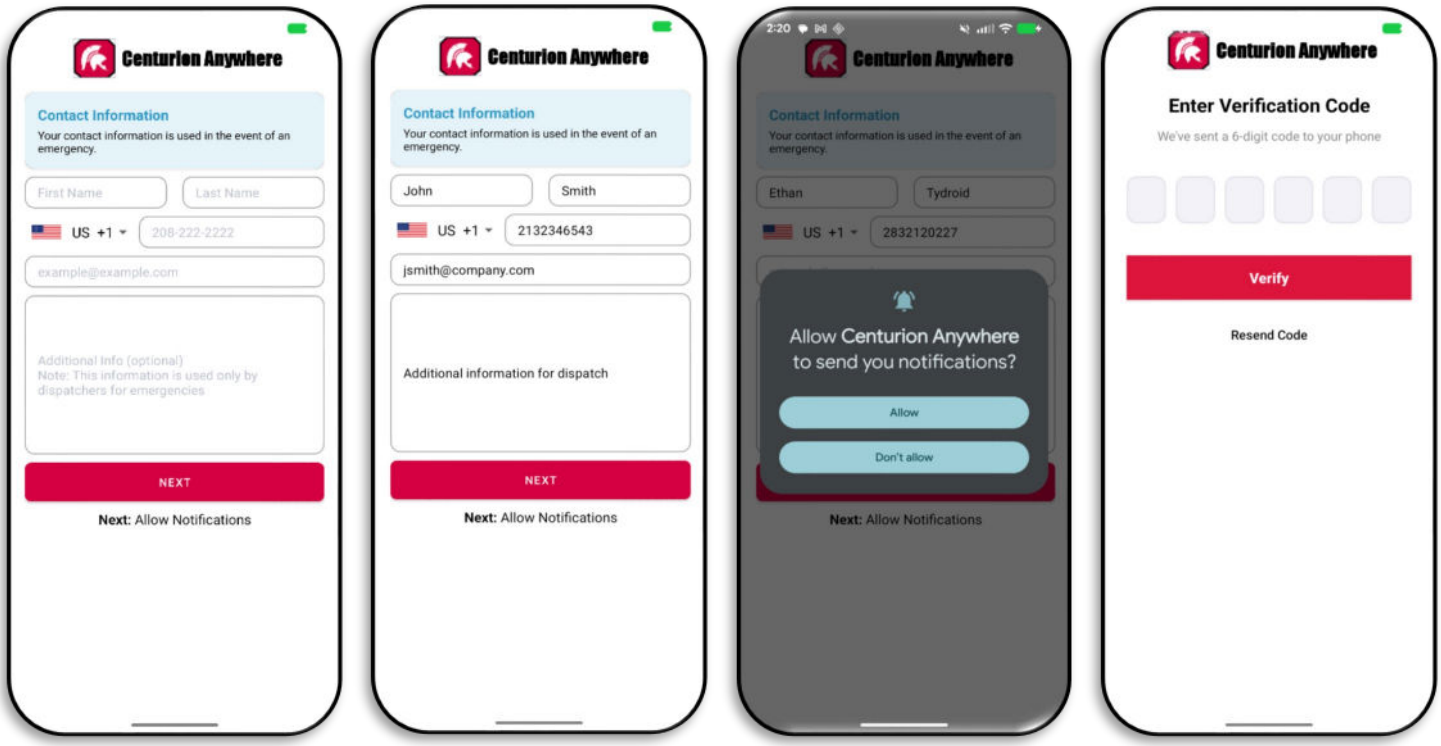

COMPLETE REGISTRATION

a) Select “While using the app” to allow your camera to scan the QR code on your Anywhere Button.
b) Scan the QR code on your button. If it fails, you can select to Enter Manually.
c) View and Accept License Agreement and pair the CAB to the phone.
d) Enter contact information - the app sends your information to Police when activated.
  i. Additional information can be added to assist dispatch.
e) Enter verification code sent to your phone number to complete registration.

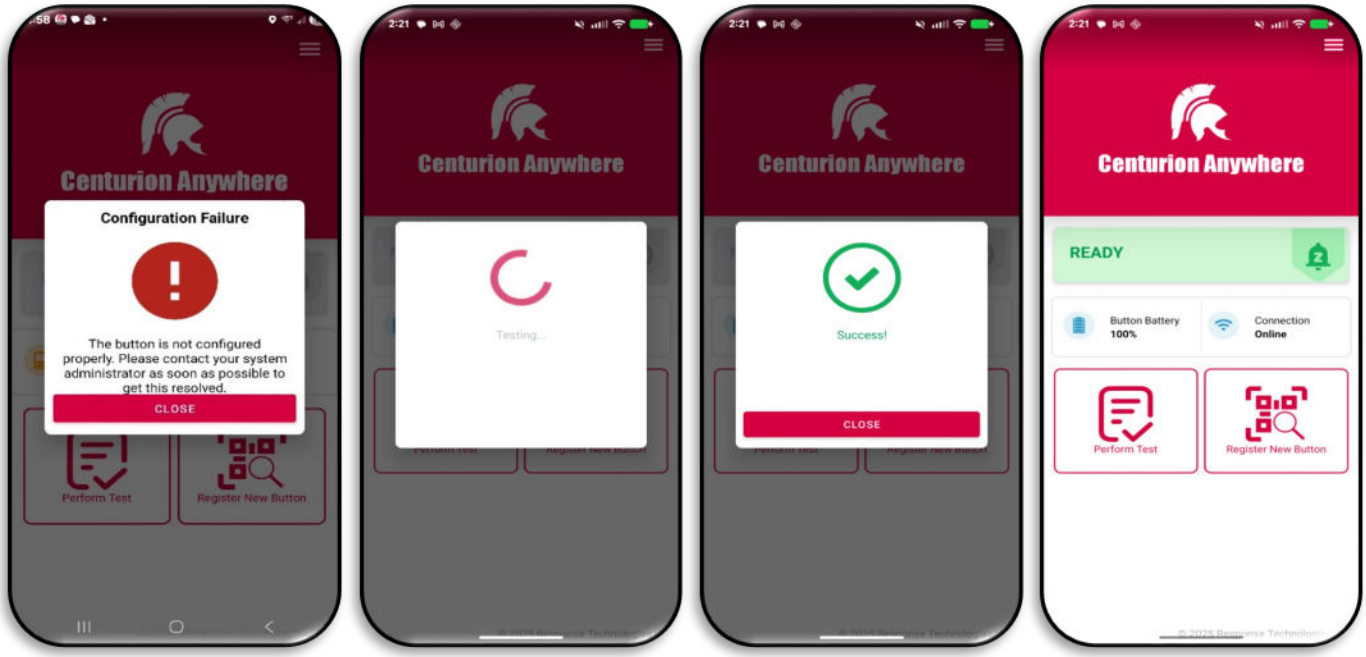

TEST ANYWHERE BUTTON

a) After completing the registration, the button will perform a test automatically. If test fails, contact your system admin.

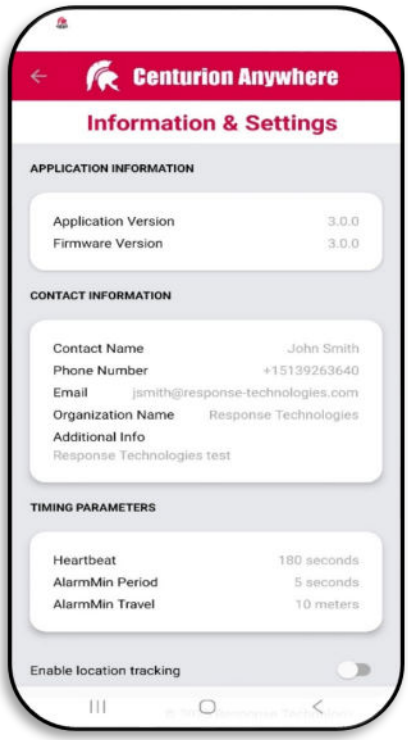

b) You can manually test by pressing the "Perform Test" button. When successful, it will show you a green ✓ checkmark and your button will now be functional.

VERIFY INFORMATION

a) View the app to confirm button is "Ready" for use.

b) Select the 3 lines in top right corner and verify information is correct.

USING ANYWHERE BUTTON

TO ACTIVATE:

PRESS AND HOLD BUTTON FOR 2-3 SECONDS.

DAILY CHECK:

1. ENSURE CELL PHONE IS ON, WITHIN RANGE, AND CONNECTED TO WIFI OR CELL SIGNAL.
2. ENSURE BLUETOOTH IS TURNED ON.
3. OPEN CENTURION ANYWHERE APP AND ENSURE BUTTON IS CONNECTED TO PHONE.
4. ALWAYS KEEP PHONE WITHIN BLUETOOTH RANGE OF BUTTON.
